

WESTERN EXCELSIOR WEB SITE UPDATED

WWW.WESTERNEXCELSIOR.COM UPDATED

Release Date: 1/2/12

westernexcelsior.com has been updated to include new user features and detailed resources for a series of new products now offered by Western Excelsior. Upgrades have been affected throughout the site. Navigation and user interfaces have been updated, as well as information and data throughout each page. New features of the site include a streamlined interface, simplified and expanded product data download options, and additional informational resources for product and project support.

Now supplied at this site is product data on Tackmat_x, Tackmat_s, Excel R-2, Excel S-1, PP5-Heavy Duty, PP5-Xtreme and Xtreme Armor System. These new products represent significant advances in erosion control and/or turf reinforcement technology developed by Western Excelsior.

Additionally, each product has improved support for LEED documentation, made in the USA certification, product comparison and design support. Succinct packaging information, case studies and brochures for each product are now just a click away. Visit westernexcelsior.com to stay up to date with Western Excelsior products and technology.

“Blanketing Nature with Nature”
