

WESTERN EXCELSIOR WEB SITE UPDATED NEW FEATURE ADDED TO WESTERNEXCELSIOR.COM

Release Date: 3/8/12

Regulatory Database Now Sortable

Many users visit westernexcelsior.com to get information on Western Excelsior products. Customers, regulators and users all find their way to the site to get the most up to date information available quickly and hassle free. One of the outstanding features of westernexcelsior.com is the Regulatory Database page. This page allows visitors of the site to see all of the products Western Excelsior has approved by various DOTs and which products comply with various specifications. This resource has proven to be invaluable for users to make sure the products headed to the project are in compliance with specifications.

Western Excelsior has now improved the Regulatory Database page by adding a sort feature for each column. This feature allows the user to quickly change the order of the listings to find category or product approvals of interest. Visit the Regulatory Database page from the Resources tab to utilize the new feature.

Western Excelsior Field Proven Solutions

"Blanketing Nature with Nature" | Temporary | Extended Term | Long Term | Permanent | Sediment Control | Mulch |

Regulatory Approvals

Western Excelsior is dedicated to providing the users and suppliers of Excel products industry leading technical and logistical support. A database of product regulatory approvals has been developed and is available on this page. Selecting the state (DoI) or regulatory body of interest (ECTC/FHWA) will present a list of Excel products approved by the chosen jurisdiction. Approved categories and dates are also provided. This list is updated frequently, however, as many agencies may change policies without notice, final approvals are governed by the regulatory agencies.

Western Excelsior Products approved for the state of Alabama
