

WESTERN EXCELSIOR WEBSITE UPDATED

A NEW LOOK AND NEW RESOURCES

Release Date: 12/13/06

Western Excelsior has updated westernexcelsior.com to reflect a cleaner interface, simplified navigation, increased useability and resources for the erosion control professional. Within westernexcelsior.com product information, specificaitons technical data, application data, case studies, research and development and design information is available. The new website offers:

- Western Excelsior Company Information
- Product Details and Documentation
- Product Application Guidance
- Distributor Contact Information
- Communcation with Wester Excelsior Personnel for Questions
- Erosion and Sediment Control Overviews

The screenshot displays the Western Excelsior website interface. At the top, there is a navigation bar with the company logo and the text "Western Excelsior Products". Below this, a secondary navigation bar includes links for "Blanketing Nature with Nature", "Temporary", "Extended Term", "Permanent", and "Sediment Control". The main content area is divided into several sections: "Home", "About Us", "Environmental Benefits", "Products", "Technical Resources", "Contractor Resources", "Distributor Network", "Links", and "Contact Us". The "Contractor Resources" section is highlighted, showing a list of "View Press Release Archive" items, including "Historical Press Releases", "Current Press Release", and "Western Excelsior Company Information". Below this, there is a section for "Installation and Use Updates" with a table listing a document titled "Western Excelsior RECP Index Property Summary (Multiple Units)" dated 10_12_06. The "Slope Instructions" section is also visible, featuring diagrams and text for "Step 1 - Site Preparation", "Step 2 - Seeding", "Step 3 - Staple Selection", and "Step 4 - Excavate Anchor Trench and Secure Blanket". A "Download pdf/dwg" button is present, along with a search bar and a footer with various navigation links and logos for ECTC and IECA.

Western Excelsior has now available a new comprehensive brochure detailing each product. The new brochure is available as a three-ring catalog or on westernexcelsior.com electronically. Download the Western Excelsior E-Brochure to view the catalog. See your local distributor for details or contact Western Excelsior.

[Westernexcelsior.com](http://westernexcelsior.com) continues to be maintained to offer the latest information on Western Excelsior products and serve as a resource for the erosion control professional. Continue to visit to remain updated on the erosion control industry and Western Excelsior.
