# EXCEL® Straw Erosion Mats NOW available with **SPEEDY GREEN™**

Western Excelsior is excited to introduce Speedy Green™, the newest addition to our Excel® Double net Straw Erosion Control Blankets.

The patent-pending Speedy Green process results in a natural green-colored, straw-fiber erosion control blanket. Speedy Green is now available on our double net straw blankets and is compatible with our standard, rapid-go, and natural net option.

Speedy Green is a great option for those project sites wanting the highest quality erosion control with a natural instant green!

- Instant natural green color for project site blending.
- Quick establishment of vegetation.
- Available in 4' and 8' wide rolls with a variety of netting options.
