RE: Certification of Conformance and Delivery for WattleFence

To Whom it May Concern:

This document has been drafted to provide certification as to the origin, properties and delivery of WattleFence, a Sediment Retention Filtration Roll (SRFR). WattleFence is produced by Western Excelsior Corporation (WEC). The material is produced in the United States. Each WattleFence unit is subjected to regular inspection and testing in accordance with the WEC Quality Assurance Program. Properties and specifications of the material are provided on document number WG\_MPDS\_WATTLEFENCE, attached as reference. Installation documentation may be found at [www.westernexcelsior.com](http://www.westernexcelsior.com).

Since most WEC products are sold to distributors and stocked, WEC is typically unable to certify material type or quantity delivered to the project/project site. However, space is provided below for distributor/contractor certification of materials delivered to the project/project site.

To the best of our knowledge, the information included is accurate.

A handwritten signature in black ink, appearing to read 'Jill Pack', is written over a horizontal line.

Jill Pack, CPESC  
Product Manager

### Standard Material Delivery Certification

Material Provided by (Distributor/Contractor):	_____
Material Provided to (Contractor/Project):	_____
Project Name / Project Number:	_____
